Re: United States v. Sornoza 2:00-CR-00943

Your Honor,

Greetings and salutations, on May 6, 2016 my attorney Jeremy Gordon filed a motion for a recommendation regarding length of RRC placement.

I am writing this letter asking that you grant this motion due to the fact I realized how important my family is. I grew up around money, yet money is not everything. I realized being there for my children, hugging on them is more important. I left my wife taking care of our business as well my children because I did not want to obey the terms of my supervise release.

I ask humbly that you consider this motion and grant it. So I can be able to take responsibility for my actions and my family.

I thank you in advance for your assistance in this matter.

Respectfully Yours,

Walter Sornoza
